SUMMARY

B.Tech student with 9.16 CGPA, skilled in Python, C++, and data analysis. Strong foundation in ML, deep learning, and statistics with experience building and deploying data-driven solutions. Passionate about leveraging data to create impactful AI-powered insights.

EDUCATION

Bachelor of Technology in Artificial Intelligence and Machine Learning from JIET College (May 2022 - May 2026)
CGPA (up to 8th Semester): 9.16

12th Grade - Gaya College (BSEB), April 2019 - April 2021
Score: 73.2%

10th Grade - National Public School (CBSE), April 2018 - April 2019
Score: 78%

SKILLS

Programming Languages - C++, Python

Data Science - NumPy, Pandas, scikit-learn, Matplotlib, Seaborn, Tableau (basic), NLP, CNN, Keras

Database - MySQL

Tools - Git & GitHub, Visual Studio Code, Jupyter Notebook

Soft Skills - Problem-solving, Communication, Teamwork, Adaptability, Positive Attitude

PROJECTS

Resume Categorization For Python Developer And Data Science 

- **Objective:** To automate the classification of resumes into relevant job roles like Python Developer and Data Scientist using NLP and machine learning techniques for faster and more accurate candidate screening.
- **Tools & Technologies:** Python, spaCy, NLTK, scikit-learn, TF-IDF, Flask, ML/NLP, Matplotlib, Seaborn, Jupyter Notebook
- **Outcome:** Successfully built a machine learning pipeline that automatically classifies resumes into job-specific categories such as Python Developer, Data Scientist, and Machine Learning Engineer.

Old Bike Price Prediction 

- **Objective:** To build a machine-learning system that predicts the resale price of old bikes using features like brand, model year, mileage, and condition, helping buyers and sellers estimate fair market prices..
- **Tools & Technologies:** Python, Numpy, pandas, scikit-learn, ML, flask, Matplotlib, Seaborn.
- **Outcome:** Developed and deployed a machine-learning model to predict old bike prices with high accuracy, showcasing data collection, preprocessing, feature engineering, model building, and deployment skills..

EXPERIENCE

Data Science and Machine Learning Intern, Systarc Technologies(Jaipur, Rajasthan) 05/2025 - 08/2025

- Cleaned and preprocessed datasets containing over 500,000 entries, reducing inconsistencies by 30%.
- Developed and optimized machine learning models that improved predictive accuracy by 15%.
- Designed interactive visualizations that helped stakeholders make data-driven decisions, leading to a 20% improvement in efficiency.

CERTIFICATIONS

- Tfour Tech Pvt. Ltd. - Web Development (Frontend)
- Infosys Springboard - Database Design and ER Modeling
- Upflairs Pvt. Ltd. - AI/ML with Data Science

ACHIEVEMENTS

Smart India Hackathon 2023

College-level finalist.

Open House

Conducted a technical game for school students.

Annual Function (2023)

Awarded a silver medal for securing the top rank in the second semester.
